I. REASON FOR THIS POLICY

Describe the policy for purchasing food using University funds. This policy applies to food and/or beverage purchases other than the reimbursement for travel per diem.

II. STATEMENT OF POLICY

For ALL reimbursements of food/beverage other than for travel, a receipt showing the detail of what was purchased is required. Alcohol is NEVER an allowable expenditure. Generally, food for employees at their home station is NOT an allowable expenditure. Food for employees can be paid from Agency, Foundation or Institutional Representation funds only.

- A. **State Funds** - No food can be purchased from state fund accounts (funds starting with a "21####").
- B. **Registration Fees** - Food purchases for an event such as a camp, conference, or banquet where fees have been collected from participants to cover the food costs are allowable. University or state funds cannot be used to pay for meals included in a registration fee for an employee attending at their home station.
- C. **Grant Funds** - Grant funds can be used to purchase food if specifically outlined and approved in the grant award.

- D. **Institutional Representation Funds** – Funds are available to the president and vice presidents for hospitality purposes, including food. Food expenses for accreditation visits, above the per diem allowance for the reviewers, can be paid from the institutional representation account.
- E. **Agency or Foundation Funds** - These sources can be used to purchase food, subject only to the limitations placed on them by the funding agency.
- F. **Local Funds** - Purchases of snack foods and beverages (for full meals) will be allowed out of local accounts when the foods are provided for activities involving current students, prospective students, or the public. Food for employees is NOT an acceptable expense. Activities such as recruiting, student orientation, ambassador training, student recognition events, or student organization activities would qualify.
