Required Technology
The University of South Dakota has established minimum technology requirements for participation in online courses. These are outlined under the “Technology Support and Requirements” section in the CDE Online Orientation document in the Getting Started widget on the course homepage.

Additionally, live lectures/office hours will be facilitated via a web-conferencing system called Collaborate Ultra. In order to fully engage in these, it is recommended that you purchase a USB multimedia headset – earphones with a microphone- so that you can ask questions instead of typing them. These can be purchased online, or from your local retailer (Walmart, Best Buy, Radio Shack, etc.), for approximately $15-30, depending upon the brand and model (Logitech is recommended).

Important: Students must have the ability to submit papers in a format compatible with Turnitin (Word, DOC or DOCX, OpenOffice, ODT; Other: RTF, TXT, PDF, WPS) as the instructor will use the GradeMark feature of Turnitin to provide feedback.

General Course Requirements and Expectations
The South Dakota Board of Regents defines a credit hour as constituting one hour of classroom or direct faculty instruction, and two hours of out of class student work. Since this is a two credit-hour course, students should expect to invest approximately 6 hours per week in this course. Those who enroll for 3 credits will have an additional assignment, negotiated between the student and instructor.
Because this is an online course, where we will not meet face-to-face, this engagement will be facilitated by the following activities, postings in the weekly discussion, attending the live lecture or watching its recording (when applicable) and completing the graded assignments by the due date.

Grading will be based on discussion contributions and completion of assignments activities; these will be outlined in more detail in the syllabus.
