

THE R. O. T. C.

EVERETT H. MANN

The University R. O. T. C., having in its classes all Freshmen and Sophomores, is conducted for the purpose of teaching the basic military tactics of the United States Army.

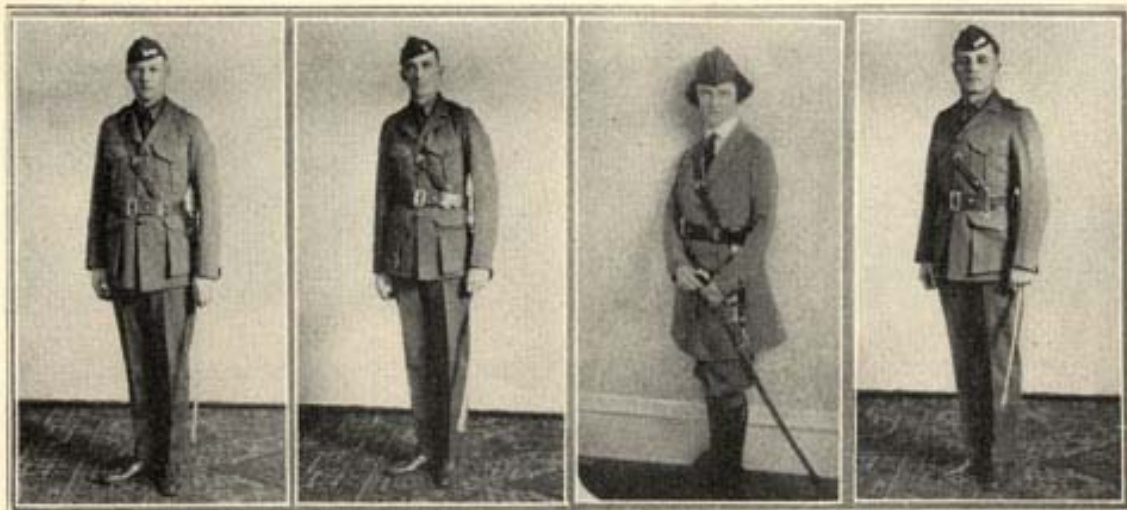

Rifle matches with other institutions, fired by the South Dakota squad during the winter, resulted in favorable returns for the University. Among the teams which were defeated by the Coyote marksmen were Nebraska, Columbia, North Dakota and Northwestern. The girls' rifle team, tutored by R. O. T. C. instructors, won half of their contests.

The unit was given some practical work this spring when it successfully constructed a bridge in the Vermillion municipal park. A number of the advanced students annually attend the summer camp at Ft. Snelling.

The annual review of the batallion, on President's R. O. T. C. Day, was conducted on May 23 by President R. L. Slagle and Gen. George B. Duncan. Majoreess Mabel Brookman, chosen from the senior class by the unit as its honorary commanding officer, was also in the stand.

The Military Department has for the past year been under supervision of Capt. R. C. Throckmorton, with Capt. Ernest Boruski and Sgt. Foster Kilbourn as assistants. Capt. Boruski, after serving at South Dakota for two years, has been transferred to foreign service, and his place will be taken by two newly detailed officers next fall.

Everett H. Mann, who received his commission last spring, is the first graduate to be turned out by the Department. He has completed four years of military work, and is now a regularly commissioned Second Lieutenant in the Infantry, Officers Reserve Corps, United States Army.
