

BACHELOR OF ARTS/BACHELOR OF SCIENCE IN ECONOMICS

UNIVERSITY CENTER - SIOUX FALLS, S.D.

PROGRAM DESCRIPTION

The B.S./B.A in Economics is the science of choice and decisions. The skills gained from a degree in economics will allow students to become successful business leaders in many industries. Students will develop skills that will allow them to weigh the costs and benefits of a particular course of action in the fields of law, industry, finance, government, education, and many other areas of business and civic life. A degree in economics prepares students for various career paths including industry economists, economists in state and federal government, city or urban planners, and economic editors.

The University of South Dakota College of Arts and Sciences extends a B.A. and B.S. in Economics to Sioux Falls.
