

Technical Standards for Admission

This form may be printed and returned with all application materials to:
Secretary, Selection Committee
Department of Dental Hygiene
University of South Dakota
East Hall 120
414 East Clark Street
Vermillion, SD 57069

The USD Department of Dental Hygiene faculty believes that an applicant for admission to the program must possess certain abilities and skills in the areas of intellect, sensory function, communication, fine and gross motor function, and behavior. This document outlines the minimum abilities each applicant should possess prior to entry into the program. The department will not discriminate on the basis of race, color, creed, national origin, ancestry, citizenship, gender, sexual orientation, religion, age, or disability. Qualified applicants with disabilities will be considered individually in relation to the guidelines outlined below.

In order to assume the responsibilities and perform the duties of a dental hygienist, individuals must be able to satisfactorily possess/accomplish the following:

1. Intellectual abilities requiring reason, analysis, problem solving, critical thinking, self-evaluation, and lifelong learning skills are required. Students must be able to learn, integrate, analyze, and synthesize data. Comprehension of three dimensional and spatial relationships is necessary. Consistent, accurate and quick integration of information is required especially in emergency situations.
2. Somatic sensation and functional use of all the senses is required. Exteroceptive (i.e. touch) and proprioceptive (i.e. position, pressure, movement) sense is mandatory. Applicants must be able to observe demonstrations from a distance and close at hand; performance of procedures in the classroom, lab, and clinic is required.
3. Applicants must be able to communicate effectively with patients, peers, faculty, and guests. Interpersonal communication is vital to the relationship between the dental hygienist and the patient. Forms of communication include verbal speech, nonverbal movements and written format.
4. Sufficient fine and gross motor function is required to perform a variety of clinical procedures. Applicants must be able to execute those motor movements required to provide comprehensive dental hygiene care in a manner consistent with traditional dental hygiene practice. In addition, applicants must be able to perceive and interpret tactile vibrations appropriately, manipulate small objects and materials, and pay attention to fine detail. Applicants must be able to tolerate physically taxing workloads and function effectively under stress.
5. Applicants must possess the emotional health required for full utilization of his/her intellectual abilities, exercise of good judgment, and prompt completion of all responsibilities associated with the care of patients. The development of mature, sensitive, professional relationships with patients is essential. Compassion, integrity, empathy, and respect are all personal qualities that are necessary for the professional dental hygienist.
6. Upon acceptance to the USD Department of Dental Hygiene the student must meet the requirements of immunization and testing (including Hepatitis B, Measles, Mumps, Rubella, Varicella, Tdap, Polio, TB testing.)

The USD Department of Dental Hygiene reaffirms that no applicant will be excluded on the basis of race, color, creed, national origin, ancestry, citizenship, gender, sexual orientation, religion, age, or disability. Qualified applicants with disabilities will be considered individually in relation to the guidelines outlined in this document.

This is to acknowledge that I have read and understand the Technical Standards for Admission to the USD Department of Dental Hygiene.
