6. TERMINATION WITHOUT ENROLLED STUDENTS

a. Provide a justification for terminating the program:

No student has enrolled in the MA level of School District Superintendent Program in the last five years. Most potential students in School District Administration-Superintendent Program first earn a Master's degree in PreK-12 Principle Leadership and then pursue Ed.S. in School District Administration-Superintendent.

b. What is the proposed date (day/month/year) for the program to terminate (program status in the database changes to *Deleted*)?

May 23, 2018 is the proposed date to terminate the Master's degree in School District Administration- Superintendent.

c. What are the potential cost savings of terminating the program and what are the planned uses of the savings?

The coursework will still be offered at Ed.S. and Ed.D. level so there would not be any potential cost savings.

d. What are the resulting employee terminations and other possible implications including impact on other programs?

There would be no employee terminated or other possible implications for terminating the MA level of this program.

¹ Note: Certificates, specializations, and minors may only be terminated and not placed on inactive status due to limitations in Colleague.
² Note: An inactive program is a program a university has authority to offer, but the program is not admitting new students and has not formally terminated. A presumption exists that inactive status is a temporary status; universities review inactive programs periodically to determine the feasibility of reactivating or terminating the program. Programs can remain inactive for five (5) consecutive years at which time a university must terminate the program. A terminated program is a program for which a university ceases to have authority to offer. Reinstatement of a terminated program requires university and BOR approval through the prescribed new program approval processes.
