7. Explanation of the Change:

The National Center for Education Statistics (NCES) maintains the Classification of Instructional Programs coding (CIP codes). The current set of CIP codes was published in 2010. The CIP Code database is updated every 10 years and the 2020 CIP codes will take effect in the next catalog/financial aid year. At this time, we will only be reviewing major codes that report to our programs. We received a report comparing our past 3 IPEDS Completion Surveys and found that our current CIP codes in use, had no substantive changes, only slight changes to title or description on a select few. A full review of major codes was distributed with the opportunity to move the CIP code to one of the 543 new CIP Codes or any CIP Code in the new 2020 CIP Code database. The 16 major codes above were identified and a new CIP Code was provided.
