An accelerated graduate program for the purposes of this guideline is a graduate program at a Regental institution that allows a student to count courses for undergraduate and graduate credit simultaneously. Board Policy 2:8 – Level and Numbering of and Enrollment in Courses governs the transfer of courses between the undergraduate and graduate program.

Board of Regents Policy 2:5 – Transfer of Credit requires the Board of Regents to approve accelerated programs involving the transfer of thirteen (13) or more credits up to a total of twenty-five (25) total transfer credit hours at the accepting institution. In other words, an institution may create an accelerated program of one (1) to twelve (12) hours without Board approval. However, an accelerated program requires the creation of coding by the Enrollment Services Center (ESC) regardless of whether or not the accelerated program is accepting more than twelve (12) credit hours.

- 1. Maximum number of credits allowed to transfer between undergraduate and graduate program:** 20 credit hours
- 2. Is the response to Question 1 more than thirteen (13) credit hours?**
 Yes No
 (requires BOR approval) (does not require BOR approval)
- 3. What is the proposed date (day/month/year) the accelerated program would begin?**
 August 24, 2020. TERM: Fall 2020 [202080]
- 4. Please provide a brief explanation of the accelerated program, including specific courses eligible for both the undergraduate and graduate program credit.**

The addition of accelerated 3+3 programs in both the B.S. in Neuroscience and the B.S. in Kinesiology and Sport Management-Exercise Science specialization will allow the undergraduate program to count 20 hours of the 1st year of OTD towards the electives in the B.S. degree (see 4-year plan guides on pages 3 and 4). The student will complete 100 hours by the end of the 3rd year towards the undergraduate degree.
