Section 1. Course Title and Description

Prefix & No.	Course Title	Credits
NURS 841	Applied Evidence-Based Practice and Population Health Concepts [Short title: EBP: Pop Health Concepts]	3

Course Description
<p>This course will focus on the principles of public and community health to improve health outcomes aimed at a systems level approach. The student will evaluate care delivery models and strategies using evidence-based practice principles to address gaps in care across vulnerable populations and rural and underserved communities. The student will be challenged with establishing a vision of care for populations and healthcare systems utilizing knowledge of the healthcare environment and leadership and social/change theory.</p>

Pre-requisites or Co-requisites None

Registration Restrictions None

Section 2. Review of Course

2.1. Was the course first offered as an experimental course?

- Yes (if yes, provide the course information below) No

2.2. Will this be a unique or common course?

If the request is for a unique course, verify that you have reviewed the common course catalog via Colleague and the system [Course Inventory Report](#) to determine if a comparable common course already exists. List the two closest course matches in the common course catalog and provide a brief narrative explaining why the proposed course differs from those listed. If a search of the common course catalog determines an existing common course exists, complete the Authority to Offer an Existing Course Form.

Unique Course

Prefix & No.	Course Title	Credits
NURS 760	Health Promotion & Disease Prevention	3

Provide explanation of differences between proposed course and existing system catalog courses below:

NURS 760 –Critical analysis and applications of community preventive service guidelines, health promotion and disease prevention theories and models, and implementation strategies. Foundations of social, cultural, behavioral, genomic, political, and environmental factors impacting health. Exploration of provider roles in assessing the health of individuals and aggregates in planning health promotion, disease prevention, and health maintenance programs with a focus on chronic conditions and vulnerable, rural, and underserved populations.

The proposed course (NURS 841) will provide students didactic and clinical experience in which to utilize leadership and other social/change theory, and knowledge of the healthcare environment, the student will be challenged with establishing a vision of care for populations and the overall healthcare system

Section 3. Other Course Information
