This is a request for a change in the name of the major. The Kinesiology & Sport Science division and major names were originally approved for fall 2011. In September 2015 we requested that the name of the current Division (Kinesiology & Sport Science) be changed to Kinesiology & Sport Management. This was initially approved at the April BOR meeting. It was the intent of the faculty that, similar to the current division and major name being the same, the new division and major name will be the same.

9. EXPLANATION OF THE CHANGE:

In today's academic environment, curricular programs have both external as well as internal competitors. From a marketing standpoint, we believe this name change from Kinesiology & Sport Science to Kinesiology & Sport Management will assist future students in recognizing the existence of the current Sport Management concentration. In addition, the faculty believes that re-branding our division will strengthen the academic program we offer to our current stakeholders.

This is a change to the KSS core. Two years ago, after a meeting with representatives from the USD administration, USD athletic department, Division of KSS, Faculty Athletic Representative and USD athletic academic advisors, it was decided to make KSS 494-Internship a variable 1-12 credits. This modification is to update the current program of study.
