

Concentration in Deaf-Blindness and High Intensity Support Needs

Courses Include: An Introduction to Deaf-Blindness, Deaf-Blindness: Communication Strategies, Deaf-Blindness: Assessment and Instructional Strategies, Life Planning for Success: Deaf-Blind Strategies (Summer 2021).

“ I have learned so much doing this course! It has really helped me to cement my current knowledge and given me many examples of how to progress the students that I work with as I feel that many of them are 'stuck' on their current systems.”
Speech Language Pathologist ”

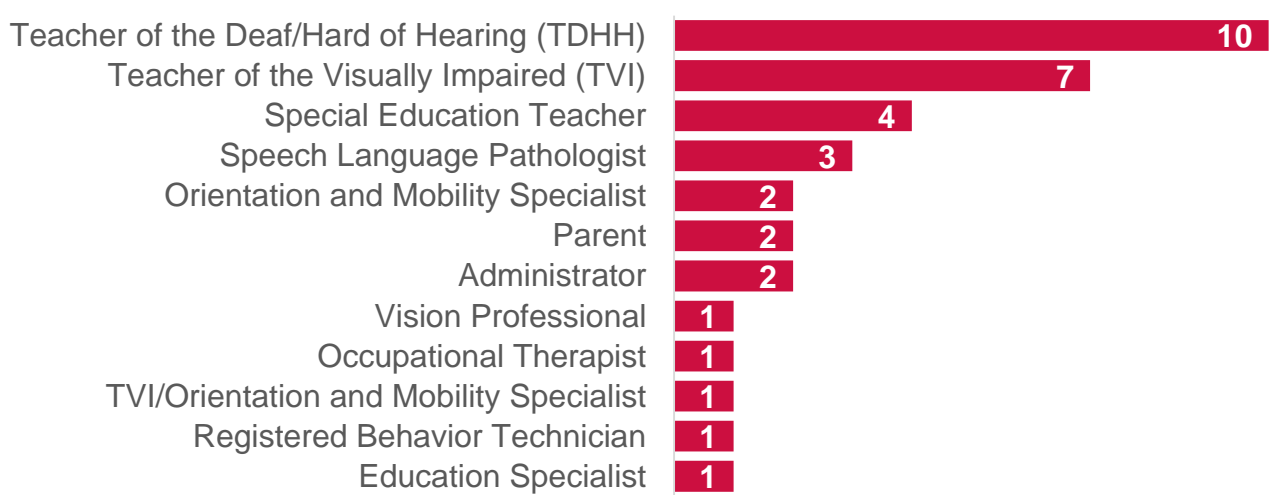

100%
of survey participants agree or strongly agree that “This training is likely to result in **better outcomes** for persons with disabilities and/or the families that I serve.”

Participants from 12 different states and England

35 Participants Enrolled Across 3 Courses

Most Participants are Teachers of the Deaf/Hard of Hearing

8 people have taken all 3 courses

“ The classes have opened my eyes to the diversity of supports available to people living with Deaf-Blindness, and on research-based methods that work. Most importantly, they have affirmed and equipped me as her parent, her advocate and her chief Intervener.”
