

NSF Biographical Sketch

(2 page limit)

Updated from the [NSF Proposal & Award Policies & Procedures Guide \(PAPPG\)](#) - NSF 17-1
(effective date: January 30, 2017)

A biographical sketch is required for each individual identified as senior personnel on an NSF grant.

New!! Effective 1/25/2016, Collaborators & Other Affiliations (formerly Section E of the Biosketch) is to be uploaded as a separate Single Copy Document. Single Copy Documents are designated for “NSF Use Only” and as such, are not provided to reviewers for use in proposal review.

- Provide **ONLY** the **requested information** and **include each section**. If you don't have information to provide for a section, indicate “Not applicable.”
- **Allowable fonts and fonts sizes:** Arial, Courier New or Palatino Linotype in 10 pt or larger, Times New Roman or Computer Modern Family in 11 pt or larger. The font size of less than 10 points may be used for mathematical formulas or equations, figures, tables, or diagram captions and when using a Symbol font to insert Greek letters or special characters. Peers are cautioned, however, that the text must still be readable.
- **Margins:** 1 inch in all directions
- **Line Spacing:** No more than 6 lines of text within a vertical space of 1 inch

NSF BIOGRAPHICAL SKETCH

NAME:

NSF ID:

POSITION TITLE & INSTITUTION:

PROFESSIONAL ADDRESS:

PROFESSIONAL TELEPHONE, E-MAIL AND/OR WEB PAGE:

A. PROFESSIONAL PREPARATION

INSTITUTION	LOCATION	MAJOR / AREA OF STUDY	DEGREE (if applicable)	YEAR YYYY
Undergraduate Institution(s)				
Graduate Institution(s)				
Postdoctoral Institution(s)				Inclusive Dates (years)

B. APPOINTMENTS

List professional/academic appointments in reverse chronological order (starting with the most recent appointment and working back). Do not include postdoctoral appointments in this section.

C. PRODUCTS

List up to 5 products most closely related to the proposed project and up to 5 other significant products, whether or not related to the proposed project. Only the list of 10 will be used in the review of the proposal.

Acceptable products - must be citable and accessible including but not limited to publications, data sets, software, patents, and copyrights. Unpublished documents submitted/accepted for publication are acceptable and should include likely date of publication.

Unacceptable products - unpublished documents not yet submitted for publication, invited lectures, and additional lists of products.

Citation format: Each product must include full citation information including (where applicable and practicable) names of all authors (no “et. al”), date of publication or release, title, title of enclosing work such as journal or book, volume, issue, pages, website and URL or other Persistent Identifier.

If only publications are included, the heading “Publications” may be used for this section of the Biographical Sketch.

Products Most Closely Related to the Proposed Project

- 1.
- 2.
- 3.
- 4.
- 5.

Other Significant Products, Whether or Not Related to the Proposed Project

List up to 5 other significant products, whether or not related to the proposed project.

- 1.
- 2.
- 3.
- 4.
- 5.

D. SYNERGISTIC ACTIVITIES

List of up to 5 examples that demonstrate the broader impact of the individual's professional and scholarly activities that focus on the integration and transfer of knowledge as well as its creation. The examples should relate to the proposal and/or reflect demonstrated skills, assets, and inroads to the program activities being suggested by the proposal. If you review for a number of journals or funding agencies, give the total number, but do not list each individual journal or agency: NSF will count each of those as one synergistic activity!

Examples: innovations in teaching and training (e.g., development of curricular materials and pedagogical methods); contributions to the science of learning; development and/or refinement of research tools; computation methodologies, and algorithms for problem-solving; development of databases to support research and education; broadening the participation of groups underrepresented in science, mathematics, engineering and technology; and service to the scientific and engineering community outside of the individual's immediate organization.
