Wegner Health Science Information Center
Quarterly Newsletter

INTRODUCING
USD RED
The institutional repository of the University of South Dakota is a digital publishing platform managed by the University Libraries. It gives faculty, staff, and students an open access avenue to publish and share their works.

How Does it Work?

Deposit Your Works
- Published Articles (Typically Pre/Post Prints)
- Creative Works
- Data Sets
- Annual Reports/Newsletters
- Theses & Dissertations
- Conference Proceedings
- Research Posters

University Libraries Provide:

Benefits of USD RED
- Increased Visibility in popular and scholarly search engines
- Permanent URL includes usage statistics
- Cost-Effective: Library service at no charge
- Altmetrics Plum Analytics: A measure of dissemination, news, mentions, and social sharing
- Downloadable PDF: Includes embedded citation & copyright license information

red.library.usd.edu

WHAT YOU'LL FIND INSIDE THIS ISSUE:

- New Books
- Loansome Doc Retiring
- Interlibrary Loan Facts
- Dynamed Plus

Essentials of Psychiatry in Primary Care: Behavioral Health in the Medical Setting
By: Smith, Robert C.

Quality and Safety in Neurosurgery
By: Guilaume, Daniel J. Editor

Critical Heart Disease in Infants and Children
By: Ungerleider, Ross Editor

Loansome Doc Retires July 1

On July 1, 2019, the National Library of Medicine (NLM) will retire the Loansome Doc system due to declining use.

- Most Sanford School of Medicine and School of Health Science faculty and staff, as well as Wegner Partners, already request full text articles through their library Interlibrary Loan (ILL) accounts.
- Faculty and staff that are utilizing Loansome Doc to submit requests, will need to begin using the libraries’ ILL System.
- SSOM and SOHS faculty/staff may use either the I.D. Weeks Library or Wegner Library ILL to acquire articles.
- Additional information and account set-up instructions for both libraries can be found here: https://www.usd.edu/library/interlibrary-loan.
- The Wegner Library will have no way to receive or fulfill requests via Loansome Doc after June 28th, 2019.
WE HAVE A NEW LOOK!

CHECK OUT THE NEW FIRST FLOOR STUDY SPACES.

There are a variety of places for students, faculty, and staff to sit and enjoy some quiet time or to get much needed studying done. Stop in and try out our pod chairs and collaborative work areas with movable white boards.

Five Facts about Interlibrary Loan

1- Interlibrary loan (ILL) is provided for all partner organizations.
2- Articles can be delivered straight to your email, typically within 24 hours.
3- Users can create their own Interlibrary Loan user name and password.
4- Articles and books can be delivered from all over the world.
5- Librarians work with publishers to provide you the best journals and databases for your research purposes. We use statistics from ILL use to help inform purchase decisions.

DynaMed will become DynaMed Plus Clinical Reference Tool

The Wegner Library will be switching from DynaMed, to DynaMed Plus by July 1, 2019. DynaMed Plus includes a new editorial leadership team, platform, search algorithm, and user-friendly interface as well as some additional features and integrations:

- Graphics and images
- Micromedex drug content, such as:
  - Medication management
  - Lab recommendations
  - Medication advisory screening
  - Summary drug information
- In-depth specialty content, such as:
  - Emergency medicine
  - Cardiology
  - Oncology
  - Infectious Diseases
  - Pediatrics
  - OB/GYN
- Overviews and recommendations based on evidence
- Responsive design (view on any screen size)
- Concept-based searching

DynaMed features that remain: daily updates, mobile app, topic alerts/notifications, calculators, CME & links to full text.
