Welcome to HLTH 103: Personal Health!
My name is Mrs. Aimee Shea,* and I will be your instructor this semester. I am very passionate about health and wellness (and teaching!), and I look forward to a great semester.

Please note: In order to gain a true understanding of and appreciation for the subjects of Health and Wellness, we will be covering some sensitive topics. You will be asked to share your feelings about a variety of topics including personal fitness, body image, nutrition, emotional health, and sexual relationships. If you are uncomfortable with such topics, you may wish to reconsider taking this course.

Please read this document in its entirety as it provides instructions for your first discussion board assignment and practice quiz.

IMPORTANT: You will not have access to the discussion board or quiz until I have opened the course via Desire 2 Learn (D2L) on January 7th, 2019.

*In case you were wondering, I am comfortable with you addressing me as Mrs./Ms. Shea, Professor Shea, Prof Aimee, or just Aimee. I only ask that you do NOT address me as Dr. Shea, as I do not have a PhD. (Once you have access to the course, you will find out more about me in the Introduction Discussion Board.)

Required Textbook & Materials

General Course Requirements and Expectations
This is a three-credit course, which would normally constitute three hours of meeting time per week in a classroom. As this is an online course, we will not be meeting face-to-face, so this engagement requirement will be reproduced by the following activities: postings on the discussion boards; reviewing posted PowerPoint presentations and textbook chapters; and completing exams, quizzes, and all other assignments at my discretion.

IMPORTANT: This is not a self-paced or correspondence-like course. You will be required and given points based upon your performance – to complete the weekly tasks. You should expect to spend a between six to eight hours a week studying for this course and should check into the course and your course email at least every other day.
Exams and quizzes must be taken using the LockDown Browser, and you must complete them independently. They will NOT be proctored. However, as the instructor, if I suspect cheating or unethical behaviors, I reserve the right to resort to proctored assessments, meaning you will have to travel to a pre-selected site to complete quizzes/exams. Also, you are NOT allowed to use any materials while taking the exams and quizzes. Please refer to the syllabus for more details (due dates, expectations, etc.).

Technology Requirements
The University of South Dakota has established minimum technology requirements for participation in online courses. These are outlined under the “Technology Support and Requirements” section in the CDE Online Orientation document (http://www.usd.edu/-/media/files/usd-online/online-orientation-guide.ashx).

IMPORTANT: All students should have access to Microsoft Word and PowerPoint 2010 (or more recent versions) to use for completion and submission of assignments. Additionally, the instructor may use the comment and proofing features in Word to provide feedback within the assignments. More information can also be found on the Office 365 Student Advantage Page in the my Portal: https://portal.usd.edu/technology/downloads/student/office-365.cfm
